Audio Type

Determine how participants can join the audio portion of the meeting. When joining audio, you can let them choose to use their computer microphone/speaker or use a telephone. You can also limit them to just one of those audio types. If you have 3rd party audio enabled, you can require that all participants follow the instructions you provide for using non-Zoom audio.

Far end camera control

Allow another user to take control of your camera during a meeting

Group HD video

Activate higher quality video for host and participants. (This will use more bandwidth.)

Virtual background

Allow users to replace their background with any selected image. Choose or upload an image in the Zoom Desktop application settings.

Identify guest participants in the meeting/webinar

Participants who belong to your account can see that a guest (someone who does not belong to your account) is participating in the meeting/webinar. The Participants list indicates which attendees are guests. The guests themselves do not see that they are listed as guests.

Auto-answer group in chat

Enable users to see and add contacts to 'auto-answer group' in the contact list on chat. Any call from members of this group will be automatically answered.
